

# Sales Analysis Report

Maincrafts Technology Internship — Task 1

Prepared by: **Arjit Anand**

Date: 20 June 2026

## 1. Executive Summary

This report presents key findings from the Superstore Sales Dataset analysis including data cleaning, exploratory analysis, SQL queries, and dashboard creation.

## 2. Key Metrics

| Metric          | Value       |
|-----------------|-------------|
| Total Sales     | \$2,297,200 |
| Total Profit    | \$286,397   |
| Total Orders    | 9,994       |
| Avg Order Value | \$229.86    |

## 3. Key Findings

### A) Region Performance:

- West region generates highest sales (\$725,457)
- South region has lowest sales (\$391,721)

### B) Category Profitability:

- Technology is most profitable (\$145,454)
- Furniture has lowest profit (\$18,451)

### C) Discount Impact:

- Higher discounts lead to lower/negative profits
- 0% discount gives best profit margins

### D) Monthly Trend:

- November and December show highest sales
- February shows lowest sales

#### **4. Recommendations**

1. Focus on West region — highest revenue generator
2. Promote Technology products — most profitable category
3. Reduce discounts — discounts negatively impact profit
4. Increase marketing in Q4 — November/December peak season
5. Improve Furniture margins — lowest profit category needs attention
